

Seq 4

Sous-classe de ^{super} classe

```
public class ChronoMono extends Chronometre {
```

extension

```
    protected long lapTime;
    public void setLapTime() {
        this.lapTime = this.getTime();
    }
    public long getLapTime() {
        return this.lapTime;
    }
```

redefinition

```
    public void raz() {
        lapTime = 0L;
        Super.raz();
    }
}
```
